

MY FACE IS A MASTERPIECE

What is Face Equality?

Face Equality refers to the concept that individuals should be treated fairly and without discrimination based on their facial appearance.

It emphasizes the idea that everyone, regardless of their facial features, has inherent value and should be respected with the same rights and opportunities.

FACES: The National Craniofacial Association, is one of the founding members of Face Equality International, an alliance of Non-Governmental Organizations (NGOs), charities and support groups which are working at national, regional, or international levels to promote the campaign for Face Equality.
